

RADIANCE

Product sheet

MADE IN
FRANCE

The Radiance headphones, under licence of Bentley Motors, complement the range of Focal closed-back headphones. With their ultra-sophisticated design and fine materials (full-grain leather, aluminium, etc.), they draw on the codes and signature of the Bentley brand. The luxury car manufacturer's "Diamond" effect is found on the headband, the grille of the ear pads and the cable connectors of the headphones. The "Bentley wings" are also present on Radiance, in addition to an elegant copper finish.

These high-end headphones are packed with the latest Focal technologies for an astonishing, dynamic listening experience. They are equipped with a full-range speaker driver and a 1^{5/8}" (40mm) aluminium/magnesium "M" shape dome. The bass is deep and impactful, the midrange is balanced and the treble is mellow and linear: you'll never look back!

Key points

- Closed-back high-fidelity headphones: remarkable sound performance
- Sophisticated design and fine materials
- Bentley signature ("Diamond" motif, copper finish, etc.)
