

CR-ST500S

Design Smart HiFi-System

KENWOOD

With a total output of 30 watts RMS, the CR-ST500S delivers crystal-clear, precise sound and effortlessly fills even larger rooms with an impressively rich sound. The high-quality broadband speakers guarantee excellent music reproduction, while the integrated downfire subwoofer with passive membrane ensures fat bass that you wouldn't initially expect from such a compact hi-fi system. The heart of the system is the impressively large 4-inch display, which not only clearly displays all information, but also enables intuitive navigation and control. Thanks to the integrated smart functions, streaming music is a breeze. The CR-ST500S plays music via Bluetooth, WiFi or directly via various streaming services such as Spotify and Deezer. The elegant appearance of the Smart HiFi system fits harmoniously into any modern interior and makes it the ideal companion for anyone who values elegant design without sacrificing real HiFi sound.
